FUTURE FOR CHILDREN e.V.

FUTURE FOR CHILDREN is a registered charity. We provide immediate and direct aid to needy children in Africa. We are also registered in Kenya as NGO organization. As a small organization we are able to help the needy children in Kenya to overcome the problems which they face from day to day. We are solving their problems and give them support. We are preparing the children for a life where they can be independent and self sufficient.

Our philosophy is „Action speak louder than words!“

A HOUSE!

FUTURE FOR CHILDREN has raised the funds and bought land on the south coast of Mombasa (Mvindi area) for building an orphanage. This orphanage is now completed and fully furnished. There, the children are provided with fundamental necessities (regular meals, clothing, money for school fees, medical aid) and most importantly vital information regarding their own health management.

A HOME!

The orphanage contains 350sqm living area. The office, a large kitchen, a storage room, the utility room and a large friendly dining and recreation area are in the basement. Next to it is the sleeping accommodation, (for 16 children) containing four large colourful rooms for children (each for 4 children, i.e. 2 bunk-beds). Separate shower rooms with toilets for boys and girls. Above are 3 large rooms for children (also for 4 children each). A large baby unit with changing units, an inviting recreation area and 2 separate rooms with en suite shower rooms/toilet for the care personnel.

Our farm of 4000 sqm contains cows to provide fresh milk and dairy products, chickens for eggs/meat and goats for milk and meat. We cultivate vegetables, e.g. tomatoes, peppers, aubergines, carrots, pumpkins, spinach, sukuma wiki, sweet potatoes, cucumbers, papaya, mangos, pineapple, bananas, passion fruit and guava. Thanks to our own well we have water all the year round and can as such provide a well balanced and varied diet.

We are operating our sterilization system with solar energy and can therefore provide fresh clean and hygienic drinking water. The children are growing up in groups similar to a family.

PLEASE JOIN OUR PROJECT – BY BECOMING A SPONSOR – YOU WILL SUPPORT FUTURE FOR CHILDREN AND ENSURE LONG TERM AND REGULAR SUPPORT.

A FUTURE!

The only way to a future is by means of education. The children attend neighbouring nurseries and primary schools. They also receive support from us in the afternoons. When they have completed 8 years at primary and 4 years at secondary school, they will be able to test their talents and responsibilities in our workshops; these will help to guide them into an independent life for the future. More help in this direction is urgently needed! Children give us hope and encouragement!

Your donation will be very much appreciated!

Our Vision

To be a center of excellence in providing both basic and social needs to destitute and orphaned children for a bright future.

Our Mission

To offer A HOUSE, A HOME, A FUTURE to the abandoned, orphaned & abused children by helping them to become responsible citizens by maintaining discipline at all times.

IMPRESSIONS!
